SUPPLEMENT TO REPORT NO.

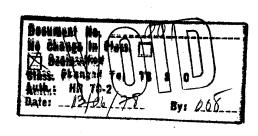

## SOURCE

- 1. Two Rumanian ammunition dumps, the first located in a forest near Trifesti, south of Roman in Roman County, and the second situated in a forest near Itesti and Gura Fêntâni in Bacau County, have been taken over by the Russisns. Since 5 September, one to two trainloads of 76.2 mm. and 121.9 mm. artillery communition have been unloaded nightly at these dumps. Unloadings were known to have taken place as late as the night of 22 September.
- 2. The capacity of these dumps is 2,000 freight carloads\* of ammunition.
- 3. The emmunition dumps at Hanu Conache, forty kilometers south of Tecuci in Tecuci County, has been prepared to receive Soviet munitions stocks.

Comment: It is not clear whether the combined capacity of these wo dumps is 2,000 carloads or whether each dump has that capacity.
